

## Team Computers assists a prime white goods manufacturer, **go digital!**

### About the Company

4 decades  
old in India

A company providing a wide  
range of consumer electronics  
and home appliances

12,000+  
workforce

### Challenges

Issues with their  
legacy system

Undelivered  
emails

Poor spam  
filtering

High costs & lack of  
collaborative tools

### Tasks in hand

- Implementation of a solution where the staff could access emails and documents from anywhere and anytime - on their existing devices.
- Collaborate without navigating through multiple applications.

### Solution

**G-Suite** was deployed as a solution for meeting current requirements of the company. Enabling 500 users with:

Access to email, calendar and documents on the go, with mobile apps and web.

Gmail for fast email, attachment search & advanced spam filtering.

Chat for convenient, casual communication that increases team collaboration.

Hangouts for easy access to group videos and screen sharing, through user inboxes that replace unnecessary travel.

Drive for online storage.

### Benefits

Quick  
improvements  
in productivity  
and efficiency

Cost Saving-  
30 - 50%, by  
reducing travel  
expenses.

Ability to work  
from anywhere,  
not just from  
the office

Adoption of new  
technologies in  
a short period

**//** We are very satisfied with Team Computers' help, in getting us to a Cloud based technology - with huge file-storage capacity, more applications and a work access from anytime, anywhere scenario. **//**

- Senior Manager, IT
